GUINETTE A CLEVER PLAYER

Says Editor Cal Davis of Hamilton, Can.

PITCHED GREAT BALL

Last Year in the Hamilton Ont. City League.

Young-town Would Like to Have Eddie Gilligan-Morton Swamped with Umpire Applications

Guinette, the Canadian slab artist secured by the local management for the Marion team of the O. P. league must be a good man. He is a Canadian and got his knowledge of the game with Oshawa in the Midland League and in the strong Senior City League of Hamilton, Can. Guinette was in the Midland League in 1902 and 1903 the following season he joined the Hamiltons, but not until it was too late in the season to show what he really could do.

In 1905 he was the mainstay of the team, and it was predicted that he would, by his pitching, win the championship of whatever team he played with in 1906, which he did. From his first entry in the Hamilton League, he hit well and throughout the entire season of 1905 he kept right up among the top notchers in a league that had an enrollment of about fifty players. He finished the season with a batting average of .274. He also had a remarkable fielding average. In 1906 the management of the Nationals in the city league devolved upon Guinette as well as the pitching of all the hard games. For lack of good hitting fielders his team got off with a bad start, losing five of the first nine games. By that time, "Lou" as he is always called, was in fine shape and for the rest of the season it was a case of win everything in sight. In the fourteen games that followed, Guinette pitched twelve, winning 11 and losing two, and in the game lost only three hits were made off him. He won nine straight games, including eight city championship games and one inter-city contest with Toronto. In a recent letter to local officials, Carl Davis, president of the Hamilton Times, Hamilton, Ont., says:

"Louis Guinette, pitcher, will be found to be one of the most promising young players brought into the O. & P. league for a long time. In the last twelve championship games he pitched, his opponents made only 45 hits, an average of 3.75 hits to a game. On account of the strenuous game he was pitching his hitting was not as good as during the previous year but he was always looked upon as a useful hitter, he being particularly good at sacrificing, standing third in the league at this style of play. His fielding of his position through out the entire season was one of the features of his work, his average being over .900. Guinette is a particularly steady and brainy player and always did his best work in the tightest places. So often did he pull his team out of a hole that the patrons of the game got to think that he could do it whenever he wished to, and his great success in winning his games justified the opinion. Guinette is not yet 22 years old, he is 5 feet 7 inches in height and weighs 165 pounds. He is strongly built, has a fine swing and attractive delivery and is fast on his feet. He is a young man of excellent habits and good address, and will be a credit to any club or city he may be with."

President Morton is using great discretion in the appointment of umpires for the coming season. He is being besieged with requests for "appointments" and "trials" and up to the present has received about 100 letters from men, both old and young, who aspire to become arbiters.

President Morton intends going outside the league cities as much as possible in naming his appointees and to date has secured two able men. William List, who proved himself the best umpire in the league last season, signed a contract a week or ten days ago and it has been forwarded to Secretary Farrell. The other man who has accepted terms is none other than Arlie Latham, the old time ball player, who is now officiating as referee in the Interstate Polo league. Latham came to an understanding with President Morton a few days since, and he will undoubtedly sign his contract within a few days.

Another man whom President Morton hopes to land is Bill Bannon, goal tender for the Canton polo team. Bill is an old time ball player, being a member of the famous Bannon family of players. He is a big fellow, a quick thinker and has all the requisite qualities of a good umpire. Should Morton be fortunate enough to land him,

he will have three excellent men on his staff.

Jack Compton, who pitched for Lancaster last season, has been instructed by Manager James McAllister of the St. Louis Browns to be in readiness to report at headquarters for the trip to Hot Springs, Ark., on March 1. Compton has been taking excellent care of himself this winter and will be in the best of condition when he reports. He is confident that he will deliver the goods with St. Louis.

The Mansfield management is worrying about Third Baseman Ritter who jumped the Giants last season and who has repeated and wants to come back in the fold. A suspended player or contract jumper may be sent to the Tristate for the remainder of his career and Secretary Farrell has turned him over to the Tristate. President Morton will aid Mansfield in his fight to have Ritter reinstated.

Even if Sandusky and Erie are not admitted to the O. and P. league the organization may have four Sunday towns. President Sturgis of the Mansfield team is endeavoring to arrange to play Sunday games in Tiffin. This city is a good ball town and fair crowds witnessed the O. and P. games played there last season.

Ed. Gilligan, formerly of Zanesville and Marion, would make a good first baseman for the Youngstown team. He is a fast fielder, can run the bases and bats fairly well. Gilligan can play third base or short and is a valuable sort of person to have about. He is full of ginger and works hard all the time. That counts for a lot in baseball.

President Charles H. Morton is being swamped with applications from men who wish to be O. & P. league umpires. Everybody seems to think himself capable of filling a job of this kind. Last year 23 men worked in the O. & P. This season Mr. Morton will endeavor to find five men who can last the entire season. Good umpires are scarcer than good ball players.

TAKE E. H. FLOCKEN'S ADVICE

For More Than Two Years They Have Been Trying to Tell You How to Cure Indigestion.

We know of no surer way to prove that we have a remedy that will relieve stomach trouble and indigestion than by offering it to you at our own expense in case it fails. Through our own personal recommendation many Marion residents have been induced to try this remarkable dyspepsia remedy, and they have found relief almost without exception. One little tablet taken after meals invariably relieves distress after eating, sour stomach, fermentation, heart burn, and other symptoms of indigestion. Pepsikola Tablets are a positive cure for chronic dyspepsia and if you have palpitation, sick headache, nervous spells, gnawing pain at the pit of the stomach, backache, or if you feel worn out, run down, tired or despondent, nothing in this world is so sure to renew your energy, steady your nerves, improve your digestion and increase your bodily vigor as a ten days' trial of these tablets. Pepsikola is also a grand nerve tonic and L. H. Flocken's will cheerfully return your 25 cents in case you are not greatly benefited.

WRIST IS BROKEN

Mrs. Mary Yeichner of Espyville Meets with Accident.

Espyville, Feb. 11.—(Special)—Mrs. Mary Yeichner, of this village, about eight o'clock this morning while going to the residence of a neighbor, slipped on some ice along the side of the road and in falling broke her right arm at the wrist.

The injured woman returned home and telephoned for a physician. Dr. Culbertson called and reduced the fracture. The injury is a most painful one and it will be some time before the patient will be able to resume her household duties.

\$100 Reward \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assailing nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

WILL AFFECT C.D.&M. ROAD

Should Consolidation Plans be Carried Out.

MAGNATES WILL CONFER

At Meeting to be Held at Gallion March 1.

Connections Contemplated with O. C. T. Line will Have Stimulating Effect on C. D. & M. Extension.

That an agreement of consolidation of the Cleveland & Southwestern Traction line, the Cleveland, Ashland & Mansfield line and the Ohio Central Traction company's line, making a through line to be operated as one system from Bucyrus to Cleveland, has been made, is practically shown by the announcement of a meeting of the stockholders of the Ohio Central Traction company to be held at the company's offices in Gallion on Friday, March 1. The announcement of the stockholders' meeting was made today.

The action of the stockholders' meeting states that it is "for the purpose of adopting or rejecting a proposal of consolidation entered into by the directors of the company on February 5." As this was about the time of the important meeting in Cleveland, only the general nature of which was made public, it is assumed that the directors of the O. C. T. line have agreed to the proposition of consolidation advanced by the Cleveland & Southwestern. As to the result of the meeting of the stockholders, it is stated that it will be merely a formal ratification of the agreement made by the directors, as the consolidation is looked upon favorably.

At present the consolidation, if effected as above, will not have a direct line to Cleveland, but the gap in the chain will be filled this spring. The necessary construction work, which is already under way, will be done between Ashland and Mansfield and between Ashland and Chippewa Lake on the present Cleveland & Southwestern. It is expected to have the Mansfield to Ashland line completed and in operation by May 1, and the branch from Ashland to Chippewa Lake will close the gap and give a fairly short and continuous line, Bucyrus to Cleveland.

It is obvious that the connections made with the O. C. T. line will have a stimulating effect on the Columbus, Marion & Bucyrus extension of the Columbus, Delaware & Marion; on the line which are proposed to run from this to New Washington and Chicago Junction. The Lake Shore Electric will evidently take active steps to get control of a connecting line between the Columbus to Marion and Bucyrus line and its own line at Plymouth, to compete with the Cleveland and Southwestern for the passenger business from this territory. There are more developments expected in electric line building this spring than was even anticipated a year ago and a few months may bring some agreeable news regarding several of the extensions which are at present time largely on paper. Developments will be watched and the outlook is for a season of surprising activity in this direction.

Neglected Colds Threaten Life

(From the Chicago Tribune.)
"Don't trifle with a cold," is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation and dry, warm clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary light cold will become severe if neglected, and a well established ripe cold is to the germs of diphtheria what honey is to the bee. The greatest menace to child life at this season of the year is the neglected cold. Whether it is a child or adult, the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy. It is safe and sure. The great popularity and immense sale of this preparation has been attained by its remarkable cures of this ailment. A cold never results in pneumonia when it is given. For sale by all druggists.

PINE SALVE ACTS LIKE A POULTICE. RELIEVES ALL FORMS OF SKIN DISEASE

Plays & Players

Nothing is being left undone in connection with the Modjeska testimonial, and the surety is that, when the celebrated actress makes her farewell appearance in Marion next Tuesday evening, Feb. 12th, in a sumptuous revival of Macbeth, the event will be one of the most memorable in the history of local theatricals. Society has taken up with enthusiasm and alacrity the suggestion that the performance take the form of a testimonial of affection and esteem, and the indications are that the evening will be one of handsome sartorial display by the social elect. It already has been arranged that several handsome floral tributes will be passed over the footlights to the distinguished artist between the acts. Were it not that the train schedule will not permit, a banquet in Modjeska's honor at which the principal members of her company would be present, would be tendered. Without this, however, the evening is certain to be one overflowing with welcome and good will—and regret that never again will players here have the chance to observe the beautiful art of Modjeska.

OBITUARIES

Carl J. Smith was born at Waldo, O., July 28, 1887. Died at Marion, O., Jan. 23, 1907, aged 19 years, 5 months and 26 days. He was the only child of John D. and Mary A. Smith. Besides his father and mother he leaves a large number of relatives and friends to mourn his departure. Carl was a young man of far more than ordinary qualifications for a life of usefulness. His strong robust and comely physical body awakened general comment. He possessed intellectual ability of a high order. He is remembered by the faculty of the Marion Business College as one of the brightest and best equipped students who ever attended that institution. He had a warm heart and a kind word for all, and hence he was a general favorite among his associates. His attendance at the public schools, the Sunday school and church services at this place, and the influence and instruction of his parents awakened in his heart ambitions for a life of achievement. But in an unexpected hour he was stricken down. The ways of Providence are beyond our comprehension, yet the better we know the God of this world, the more we are constrained to say "He doeth all things well." This event seems dark and mysterious to us all, but may we seek that grace that will enable us to be submissive to His will.

Walton-Catharine Miller was born near Waldo, Marion county, Ohio, Nov. 2, 1836, died at Kirkpatrick, Ohio, Feb. 3, 1907. On Nov. 27, 1856, she was united in marriage to Martin V. Walton with whom the entire years of married life were spent on the farm where they began life together.

In 1854, she was converted, uniting with the Methodist Episcopal Church at Kirkpatrick, where for fifty-three years she has been a most devoted member. For forty-eight years she was a teacher in the Sunday School and leader in her church. In her home, her community and her church, the constant interest of her life was to be of service to someone. Some years ago she had chosen the text for her burial service, "Let me die the death of the righteous and let my last end be like his." Num. 23:10.

She leaves a husband and four children, Mrs. Ida Neal, James T. and Mrs. Myrtle Kennedy of Kirk-

patrick, and Orta J., of Bucyrus. The departed, her devotion, sympathy and loving service live as the memorial of a life well spent.
